

MIRO CUBE™ 4CA

DESIGNED BY THE BLACK TANK

Gorgeous Palette of Colors

From walls to washes to uplighters, the Miro Cube™ 4CA color mixing wash light offers a designer maximum creativity in a tiny, 4 inch package.

Fitted with the latest phosphor converted RGBA emitter the Miro Cube™ can display a gorgeous palette of saturated, mid-tone and pale tint colors can be dialed in at the touch of a button. And of course, a true white is always available as well, not the unflattering mixed amber compromise found in other lights. The single chip design eliminates multi-colored shadows and creates a powerful, fully blended color wash wherever the designer needs it.

Smart programming in the Miro Cube™ 4CA includes a stand-alone color wash mode and allows multiple units to be easily slaved together, synchronized and off-set using self-generated DMX for color chases and other dynamic lighting patterns without a console.

An available Miro Cube™ ARC architectural configuration of the 4CA offers a hard-wired pigtail power cable and recessed RJ45 connectivity for data signal that allows for streamlined permanent installations. Use it alone, configured in strips and arrays or build it directly into the set or architecture for virtually any application needing colored light, including: stage productions, broadcast studios, bars and casinos, retail stores and up-scale lobbies.

Key Features

- Phosphor Converted Amber
- Single chip optic casts fringe-free shadows
- Unique patented (US Patent No. 8,767,398) heat management system packs the most lumens into the smallest form factor
- No expensive power supply or ballasts - direct to mains power 90-240VAC 50/60 Hz
- Over 40 luminaires on a single 20A circuit
- Modular design easily configures in strips and arrays for maximum versatility
- Flicker-free dimming in 8 or 16 bit resolution
- Intuitive touch panel full-text interface for manual control
- Easily installed on standard line-voltage lighting track with optional yoke assembly, including full DMX track options
- Full assortment of spot, medium and wide lenses included
- Novel "filament mode" mimics the delayed blackout glow of incandescent fixtures
